Broker Preferencing Opt-in Form

Cboe Australia maintains the default policy of having each participant FIX gateway configured to apply the default Price/ Visibility/ Time matching priority, however Participants can Opt-in to Broker Preferencing to change the matching priority on a per gateway basis. This has the effect of changing the matching priority to Price/ Visibility/ Broker.

By signing this form, you request that Cboe Australia changes the default matching logic for the specified gateways and in doing so acknowledge that this will affect the matching priority of the gateway/s selected.

Participant Name:

Authorised Signatory:

Print Name:
